### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art does not show or fairly suggest a rotation locking device located between two separate shafts comprising an indented displacement surface on one shaft and a locking pin resting on the displacement surface when in a non-locking position, and is displaced radially of the one shaft by undesired rotation of the other shaft, and presses against the non-rotating part of the appliance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
